

COMMUNICATIONS

SILKE COMMUNICATIONS OPENS IN BEND TODAY, NEW LOCATION WILL SERVE BEND, CENTRAL OREGON

When the City of Bend Fire Department hired Silke Communications for a full range of communications services, from radio system equipment and support, network deployment and beyond, it gave Silke just the excuse it needed to expand eastward. Its new Bend office opened November 14 and is located at 490 NE Butler Market Road, Suite 180, and its phone number is 541-550-7500.

"The City of Bend Fire wasn't the first client who requested that we have technical staff and support located east of the Cascades," says President Jim Silke, Jr. "As our client base has grown in that direction we've been looking at a number of options. Bend, and in particular the location we selected, offered what we wanted. It's going to be very good for our customers."

The Bend office will provide all Silke services, from system design to installation and maintenance. Silke will continue to offer its popular mobile service for customers who prefer a site visit.

Silke is western Oregon and southwest Washington's leading supplier of wireless radio solutions and communication tower services and spectrum. It provides a full range of services, from site construction, maintenance and operation, to delivery of VHF, UHF, 800 Mhz, conventional and LTR networks, including its proprietary FleetNet™ Digital push-to-talk radio network. The company serves a wide range of industries, from public safety and fire to transportation, fleets and industry. It has offices and shops in Vancouver, Salem, Eugene, Roseburg and now, Bend.
