

COMMUNICATIONS

FOR IMMEDIATE RELEASE

**SILKE COMMUNICATIONS TO MANAGE MCCULLY MOUNTAIN
COMMUNICATIONS FACILITIES ON NORTH SANTIAM**

Silke Communications has agreed to provide Stayton Cooperative Telephone Company with management, maintenance and operations of a communications site near Lyons, Oregon at the foothills of the Santiam Pass area. The communications site includes three towers and related support facilities.

The site is located at 44-45-48.1/44.763361 latitude and 122-37-51.6/-122.631000 longitude at a ground elevation of 493 meters/1,617 feet. The towers are 110, 80 and 40-feet tall. (View location at <http://silkecom.com/Towers/Listing>.)

Besides the convenience and enhanced reliability Silke's management will provide for the site's owner, the agreement will benefit Silke's land mobile customers by bolstering channel strength for FleetNet™ radio and pager users in the North Santiam Highway and Albany-Lyons Highway region.

This agreement is reflective of Silke's expansion in its tower services division. The company now manages a series of towers and facilities in addition to its own portfolio.

Silke Communications is western Oregon's leading supplier of wireless radio solutions and communication tower services and spectrum. The company owns or manages more than two dozen state-of-the-art, fully equipped communications facilities. Based in Eugene, the 45-year old company provides a full range of services, from site construction, maintenance and operation, to delivery of VHF, UHF, 800 Mhz, conventional and LTR networks. Silke also sells and maintains a wide range of wireless radio systems for commercial and industrial communications.
