FOR IMMEDIATE RELEASE

August 4, 2011

SILKE COMMUNICATIONS TO MANAGE COMMUNICATIONS TOWER ON COOPER MOUNTAIN IN BEAVERTON, OREGON

Silke Communications has agreed to provide KMST Television, Inc. with management, maintenance and operations of a Beaverton-Hillsboro, Oregon communications site that includes a 60-foot tower and related facilities.

The site is located at 45-27-28/45.457778 latitude and 122-52-09/122.869167 longitude at a ground elevation of 236.4 meters/776 feet. (View location at <http://silkecom.com/Towers/Listing>)

Besides the convenience and enhanced reliability Silke's management will provide for the site's owner, the agreement will benefit Silke's land mobile customers by bolstering channel strength for FleetNet™ radio and pager users in Portland's West Hills.

"The site will now be subject to the rigorous maintenance schedule and equipment audits and reviews that we apply to our own portfolio," according to President Jim Silke, Jr. "The idea is that the site's owner doesn't have to worry about it, and that the improvements will make the site more attractive to other users, Silke's included."

This agreement is reflective of Silke's expansion in its tower services division. The company now manages a series of towers and facilities in addition to its own portfolio. It's a trend the company predicts will continue.

Silke Communications is western Oregon's leading supplier of wireless radio solutions and communication tower services and spectrum. The company owns or manages more than two dozen state-of-the-art, fully equipped communications facilities. Based in Eugene, the 45-year old company provides a full range of services, from site construction, maintenance and operation, to delivery of VHF, UHF, 800 Mhz, conventional and LTR networks.
